ISBT 128 Standard Technical Specification Version Control Sheet

	Chapter, Section or Table in Version 3.2.0	Chapter, Section or Table in Version 3.3.0	Change	Rationale
Version 3.3.0, ISBT 128 Standard Technical Specification [May 2008]				
1	Definitions	Definitions	Added "human" to definition of ISBT 128	To indicate the coding system is to be used for products intended for human use
2	Introduction	Introduction	Added "human" to first paragraph	To indicate the coding system is to be used for products intended for human use
3	3.2.3	3.2.3	Added words to purpose indicating ISBT 128 product codes are appropriate for products intended for human use.	To indicate the coding system is to be used for products intended for human use
4	3.2.3	3.2.3	Removed "(including Core Conditions)" from purpose	Core Conditions do not apply to tissues.
5	3.2.23	3.2..23	Adding wording indicating that nationally defined data structures should not be used in the Compound Message Structure data structure.	Use of nationally (or regionally) defined data structures in a Compound Message could lead to confusion or misinterpretation.
6	3.3.1	3.3.1	Added a sentence to indicate that non-ICCBBA defined data structures should not be used in the Compound Message Structure data structure.	Use of nationally (or regionally) defined data structures in a Compound Message could lead to confusion or misinterpretation.
7	Chapter 4, Table 6	Chapter 4, Table 6	Added H0, Pooled ABO (Rh not specified) [For Pooled Products]	For use with pooled cryoprecipitate when Rh is not required.
8	8.1	8.1	Added a second example of how division codes may be used.	Clarification.
9	Table 31	Table 31	Indicated that the current version of the manufacturers data file is 03	The previous version of the Technical Specification incorrectly indicated it was version 02.
10	Table 34	Table 34	Indicated in the header that the current version of the manufacturers data file is 03	The previous version of the Technical Specification incorrectly indicated it was version 02.
11	13.1	13.1	Changed the name of the "Product Coding: Bounded	This is the new title of the document.

			Lists and Definitions” document to “Standard Terminology for Blood, Cellular Therapy, and Tissue Product Descriptions.”
